PROFILE SUMMARY

A recent graduate in Electronics and Communication Engineering with a minor in Computer Science, now pursuing a career in graphic and UI/UX design. Skilled in Figma and Canva. Adept at designing user-centric interfaces and building responsive layouts for both web and mobile platforms. Skilled in front-end technologies including HTML, CSS, JavaScript, and Bootstrap, with a keen interest in web design. Passionate about crafting intuitive user experiences, translating brand guidelines into compelling digital assets, and ensuring design consistency across platforms.

ACADEMIC QUALIFICATION

COURSE	YEAR OF COMPLETION	INSTITUTE	AGGREGATE
B.tech in Electronics and Communication	2025	NSS College of Engineering, Palakkad	91.8%
Class 12th	2021	Kerala state board	99.4%
Class 10th	2019	CBSE	95.2%

WORK EXPERIENCE

- **Gtech Mulearn Foundation**
UX Designer
November 2023 - April 2024
- Specialized in wireframes, Information Architecture, and user feedback as a UX Designer intern.
- **TinkerHub Foundation**
Learning Initiative Intern
June 2022 - January 2023
- Organized 4 study jams on Blockchain, Game Development, Rust, and React.
- Managed students and mentors, engaging 50+ participants per jam.

SKILLS

- **Design & Creative Tools:** Figma, Canva
- **Web Technologies:** HTML, CSS, JavaScript, Bootstrap
- **UX/UI Skills:** Wireframing, Prototyping, User Flows, Responsive Design, Design Systems
- **Operating Systems:** Windows, Linux
- **Other Tools:** Google Colab, GitHub
- **Soft Skills:** Visual Communication, Team Collaboration, Creative Thinking, Program Management, Critical Analysis

POSITION OF RESPONSIBILITY

- **Gtech Mulearn** : Web Development Mentor
- **TinkerHub and IEDC NSSCE** : Graphic Designer
- **HultPrize NSSCE** : Events Lead
- **ISTE NSSCE** : Graphic Designer

PROJECTS

- **Implementation of a RISC-V Platform on OpenPiton**
 - Implemented a RISC-V based single-core platform on OpenPiton to explore open-source multicore architectures and hardware-software co-design.
- **Human Scream Detector**
 - Developed a Machine Learning-based Human Scream Detector for real-time audio surveillance and emergency response applications.
- **Smart Bus System**
 - Developed a conductorless bus system with RFID fare deduction and real-time passenger counting.
 - Implemented dynamic bus stop time calculation and real-time information display.
- **Spam Link Detector**
 - Developed a spam link detector as a part of Kerala's first women only hackathon. The spam link detector can detect any link and give an alert message if it's a spam.
- **EMI Calculator**
 - A basic EMI calculator during a web development course.
- **Car Parking Counter**
 - Developed the simulation for a Car parking Counter using Logic Gates only.
